STATEMENT OF ADMINISTRATION POLICY

S. Res. 852 – Request for Information on Israel’s Human Rights Practices

(Sen. Van Hollen, D-MD, and 24 cosponsors)

The Administration strongly opposes S. Res. 852, a resolution Requesting Information on Israel’s Human Rights Practices. Pursuant to section 502B(c) of the Foreign Assistance Act, passage of the resolution would require the Department of State to produce a report on Israel. Consistent with existing statutory requirements, the Department of State already reports annually to Congress on human rights conditions around the world, including in Israel and the West Bank.

The Administration also complies with this request through implementation of the Leahy Law, which prohibits the Department of State or the Department of War from providing assistance to a unit of a foreign security force if there is credible information that such unit has committed a gross violation of human rights. Another reporting requirement related to these issues would be duplicative and distract from critical regional security concerns.

S. Res. 852 is misguided and unnecessary. The resolution’s adoption by the Senate would negatively affect our national security interests and the President’s efforts to protect the safety and security of the American people.
